Workshops & Seminars:

Gen AI 101: Master the Art of Prompts

GDG Karachi (*Google Developer Groups Karachi*)

Online/In-Person Hybrid at Szabist University 99 Campus, Karachi, Pakistan

December 9, 2024

Overview: This immersive workshop introduced the fundamentals of generative AI and large language models (LLMs) with a strong focus on prompt engineering. Participants learned to craft effective prompts, explored real-world applications of ChatGPT, Gemini, and other AI tools, and discussed ethical considerations of AI in practice. This event provided hands-on sessions, practical examples, and networking opportunities with local AI practitioners.

Use of Generative AI in Website and Mobile Application

Tech Innovators Workshop

Virtual/Online

July 2024

Overview: Gained hands-on experience with cutting-edge generative AI tools used to enhance website and mobile app development. Topics included automated code generation, UI/UX design improvements, performance optimization, and best practices for integrating AI-driven functionalities into digital projects.
